

**INDEX**  
**VOLUME 31**  
**AUTHORS**  
**2004**

- Adams, J.F.** See K.S. Balkcom, p. 6.
- Anderson, W.F.** Phenotypic and molecular evaluation of interspecific peanut (*Arachis*) lines, p. 65.
- Bailey, J.E.** See C.A. Hurt, p. 101.
- Balkcom, K.S.** Composition and decomposition of peanut residues in Georgia, p. 6.
- Banks, D.J.** See R.N. Pittman, p. 51.
- Beam, J.B.** See D.L. Jordan, p. 33; J.P. Beasley, Jr., p. 70.
- Beasley, J.P., Jr.** Peanut (*Arachis hypogaea* L.) response to the hormonal plant growth regulator Early Harvest®, p. 70.
- Besler, B.A.** See W.J. Grichar, pp. 12, 17, 95; J.P. Beasley, Jr., p. 70.
- Blankenship, P.D.** See M.C. Lamb, p. 108.
- Bowen, K.L.** See A.K. Hagan, p. 22.
- Brandenburg, R.L.** See D.A. Herbert, p. 28; J.E. Lanier, p. 36; C.A. Hurt, p. 101.
- Brecke, B.** See G. Wehtje, p. 113.
- Brenneman, T.B.** See D.W. Gorbet, p. 91.
- Brewer, K.D.** See W.J. Grichar, p. 17; J.P. Beasley, Jr., p. 70.
- Butts, C.L.** See M.C. Lamb, p. 108.
- Chengalrayan, K.** Evaluation of runner and virginia market types for tissue culture responses, p. 74.
- Dorner, J.W.** Combined effects of biological control formulations, cultivars, and fungicides on preharvest colonization and aflatoxin contamination of peanuts by *Aspergillus* species, p. 79. See also T.B. Whitaker, p. 59.
- Dotray, P.A.** See W.J. Grichar, p. 12.
- Gallo-Meagher, M.** See K. Chengalrayan, p. 74.
- Giesbrecht, F.G.** See T.B. Whitaker, p. 59.
- Gooden, D.T.** Diversity of root bacteria from peanut cropping systems, p. 86.
- Gorbet, D.W.** Field evaluations of peanut germplasm for resistance to stem rot caused by *Sclerotium rolfsii*, p. 91. See also R.W. Mozingo, p. 45.
- Grey, T.L.** See G. Wehtje, p. 119.
- Grichar, W.J.** Interaction of flumioxazin with dimethenamid or metolachlor in peanut (*Arachis hypogaea* L.), p. 12. Control of weeds in peanut (*Arachis hypogaea*) using flumioxazin, p. 17. Peanut (*Arachis hypogaea*) response to agricultural and power plant by-product calcium, p. 95. See also J.P. Beasley, Jr., p. 70.
- Hagan, A.K.** Comparison of fungicide programs for the control of early leaf spot and southern stem rot on selected peanut cultivars, p. 22.
- Hendrix, K.W.** See R.W. Mozingo, p. 40.
- Herbert, D.A., Jr.** Evaluation of the Peanut Southern Corn Rootworm Advisory, p. 28.
- Holbrook, C.C.** See W.F. Anderson, p. 65.
- Hurt, C.A.** Effect of cultivar and plant population on spotted wilt in virginia market-type peanut, p. 101. See also J.E. Lanier, p. 36.
- Isleib, T.G.** See R.W. Mozingo, p. 45; H.Q. Xue, pp. 124, 134.
- Johnson, P.D.** See D.L. Jordan, p. 33; J.E. Lanier, p. 36; J.P. Beasley, Jr., p. 70.
- Johnson, W.C., III.** See W.J. Grichar, p. 12.
- Jordan, D.L.** Peanut (*Arachis hypogaea* L.) response to cyclanilide and prohexadione calcium, p. 33. See also J.E. Lanier, p. 36; J.P. Beasley, Jr., p. 70; C.A. Hurt, p. 101.
- Kennedy, G.G.** See C.A. Hurt, p. 101.
- Kim, J.H.** See D.T. Gooden, p. 86.
- Kirby, J.S.** See R.N. Pittman, p. 51.
- Kochert, G.** See W.F. Anderson, p. 65.
- Kucharek, T.A.** See D.W. Gorbet, p. 91.
- Lamb, M.C.** Impact of sprinkler irrigation amount and rotation on peanut yield, p. 108. See also R.B. Sorensen, p. 54.
- Lancaster, S.H.** See D.L. Jordan, p. 33; J.E. Lanier, p. 36.

- Lanier, J.E.** Sickpod control in peanut seeded in single and twin row planting patterns, p. 36. See also D.L. Jordan, p. 33.
- Lemon, R.G.** See J.P. Beasley, Jr., p. 70.
- Malone, S.** See D.A. Herbert, p. 28.
- Masters, M.H.** See M.C. Lamb, p. 108.
- Melouk, H.A.** See W.J. Grichar, p. 95.
- Mozingo, R.W.** Improving shelf life of roasted and salted inshell peanuts using high oleic fatty acid chemistry, p. 40. Trends in sensory quality of roasted peanuts across 15 years (1986-2000), p. 45.
- OBrian, G.** See H.Q. Xue, pp. 124, 134.
- O'Keefe, S.F.** See R.W. Mozingo, p. 40.
- Paulk, J.E., III.** See J.P. Beasley, Jr., p. 70.
- Payne, G.A.** See H.Q. Xue, pp. 124, 134.
- Pittman, R.N.** An allotetraploid model for the inheritance of wine testa color in peanut, p. 51.
- Prostko, E.P.** See W.J. Grichar, p. 12.
- Rivas-Davila, M.E.** See A.K. Hagan, p. 22.
- Rowland, D.** See M.C. Lamb, p. 108.
- Royals, B.M.** See D.A. Herbert, p. 28.
- Sanders, T.H.** See R.W. Mozingo, p. 40.
- Savithramma, N.** See Ch. Sulochana, p. 1.
- Sconyers, L.E.** See R.B. Sorensen, p. 54.
- Shokes, F.M.** See D.W. Gorbet, p. 91.
- Skipper, H.D.** See D.T. Gooden, p. 86.
- Slate, A.B.** See T.B. Whitaker, p. 59.
- Sorensen, R.B.** Row orientation and seeding rate on yield, grade, and stem rot incidence of peanut with subsurface drip irrigation, p. 54. See also M.C. Lamb, p. 108.
- Spears, J.F.** See J.E. Lanier, p. 36.
- Stalker, H.T.** See W.F. Anderson, p. 65; H.Q. Xue, p. 134.
- Sternitzke, D.A.** See R.B. Sorensen, p. 54.
- Sulochana, Ch.** Interactive effects of PEG-induced water stress and  $\text{CaCl}_2$  on the status of calcium and  $\text{Ca}^{2+}$  binding proteins during seedling growth of peanut (*Arachis hypogaea* L.) cultivars, p. 1.
- Wehtje, G.** Peanut weed control with and without acetolactate synthase-inhibiting herbicides, p. 113. Response of new cultivars to early postemergence chlorimuron applications, p. 119.
- Wells, L.** See A.K. Hagan, p. 22.
- Wells, R.** See J.E. Lanier, p. 36.
- Whitaker, T.B.** Variability among aflatoxin test results on runner peanuts harvested from small field plots, p. 59.
- Wood, B.H.** See K.S. Balkcom, p. 6.
- Wood, C.W.** See K.S. Balkcom, p. 6.
- Xiong, K.** See D.T. Gooden, p. 86.
- Xue, H.Q.** Evaluation of post-harvest aflatoxin production in peanut germplasm with resistance to seed colonization and pre-harvest aflatoxin contamination, p. 124. Evaluation of *Arachis* species and interspecific tetraploid lines for resistance to aflatoxin production by *Aspergillus flavus*, p. 134.
- Zhu, H.** See M.C. Lamb, p. 108.
